

LEXINGTON-FAYETTE URBAN COUNTY GOVERNMENT
WEST HICKMAN TRAIL PROJECT
LEXINGTON, KENTUCKY
SURVEY
MAY 5, 2003

The Lexington-Fayette Urban County Government has hired CDP Engineers, Inc. to facilitate the planning and design for the construction of this project. The West Hickman Trail project has been identified as a Primary Trail in the Greenway Master Plan. This shared-use trail starts at the intersection of Man-O-War and Clearwater Way and follows West Hickman Creek where it flows beneath Clearwater Way and into Veterans Park. The shared-use trail will be designed to link the Veterans Park to the surrounding neighborhoods. It is the purpose of this survey to acquire as much input as possible to assist CDP through the design process. At this time, no decisions have been made regarding proposed Trail alignment. Design decisions will be formulated only after this public meeting is complete.

Please list any comments, concerns, issues, or questions you have in the space below, and return it to CDP. In particular, we need your input regarding positive aspects of the shared-use trail as well as negative aspects. What would you like to see designed and why? And what issues concern you and why? Some issues could be trail traffic, both by bicycles and pedestrian, drainage, safety, noise, property values, etc. What type of improvements should be considered? *Please fill out and return to CDP Engineers, Inc., 3250 Blazer Parkway, Lexington, KY 40509.*
